Series: tsfare

Series: tsfare

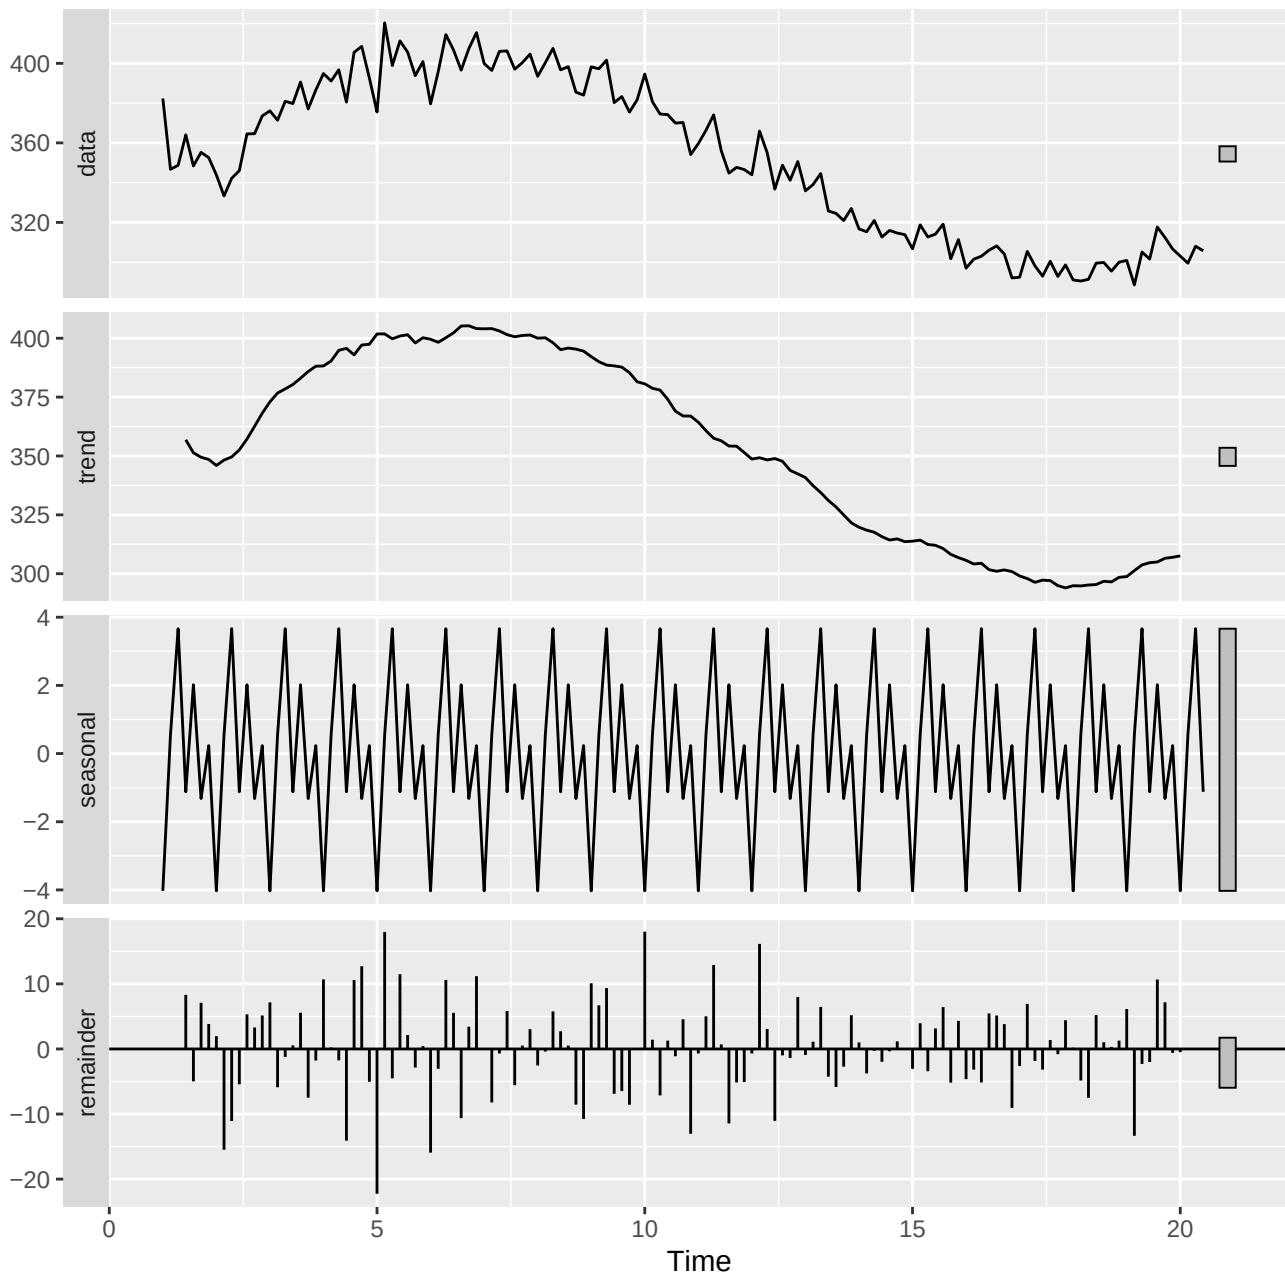

Forecasts from ETS(M,Ad,N)

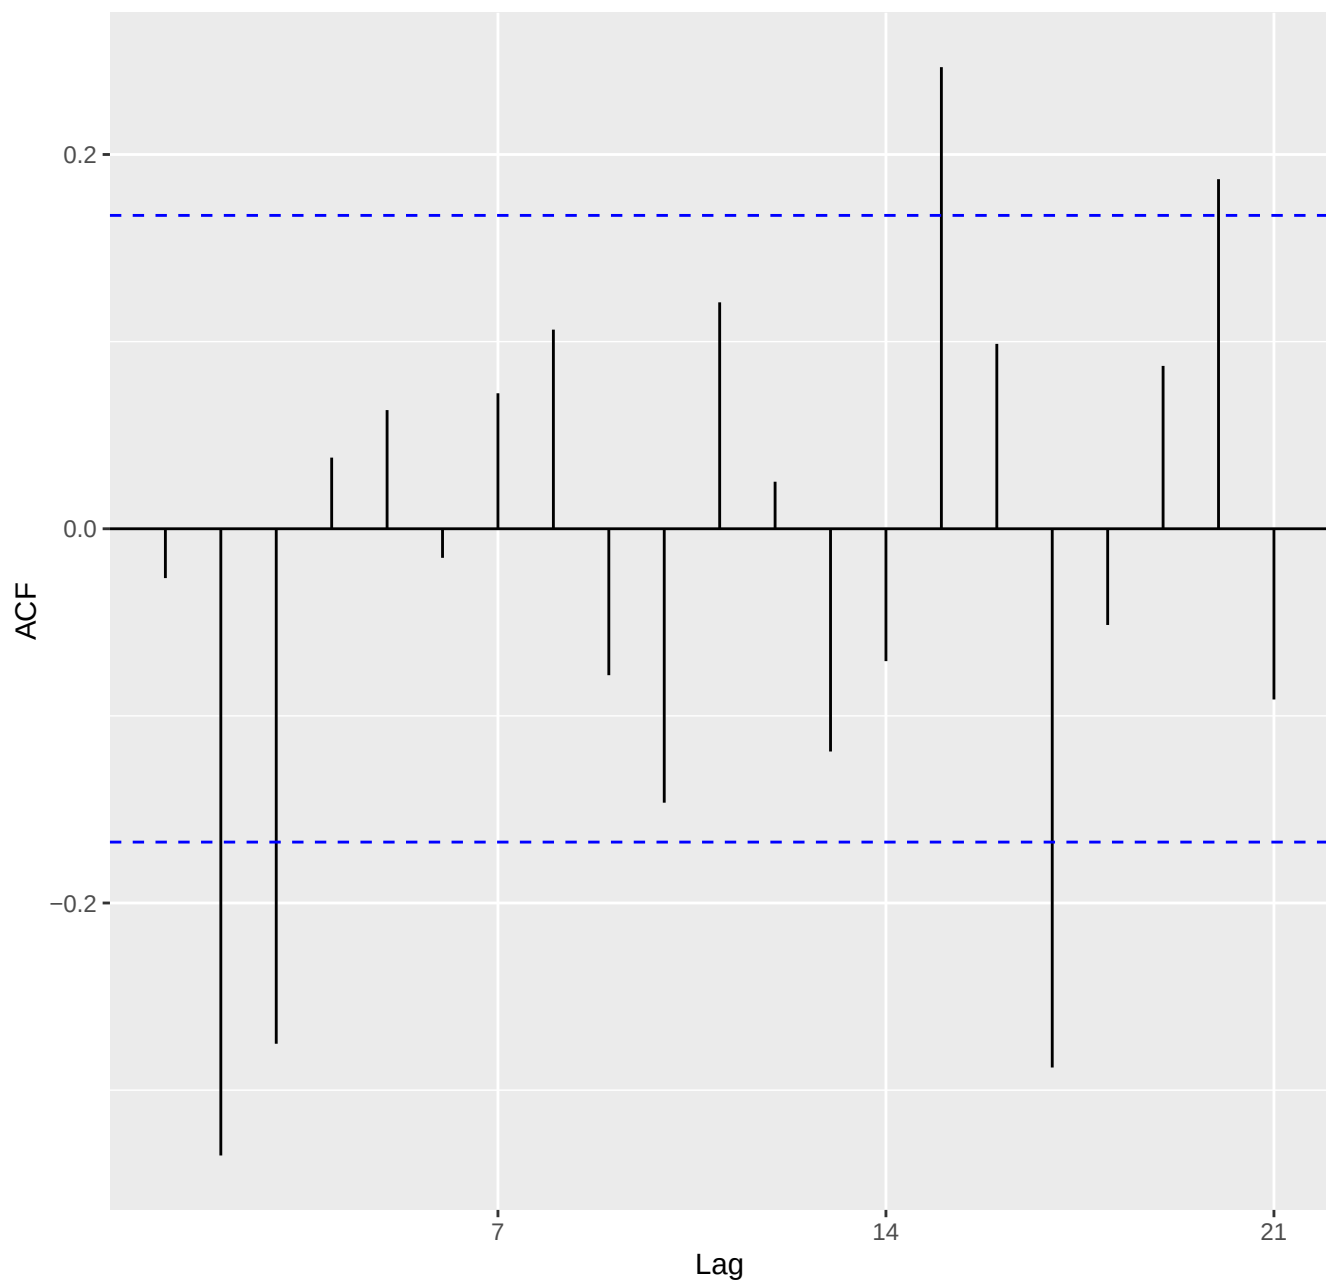

Naive Forecast with 80% and 99% Confidence Intervals

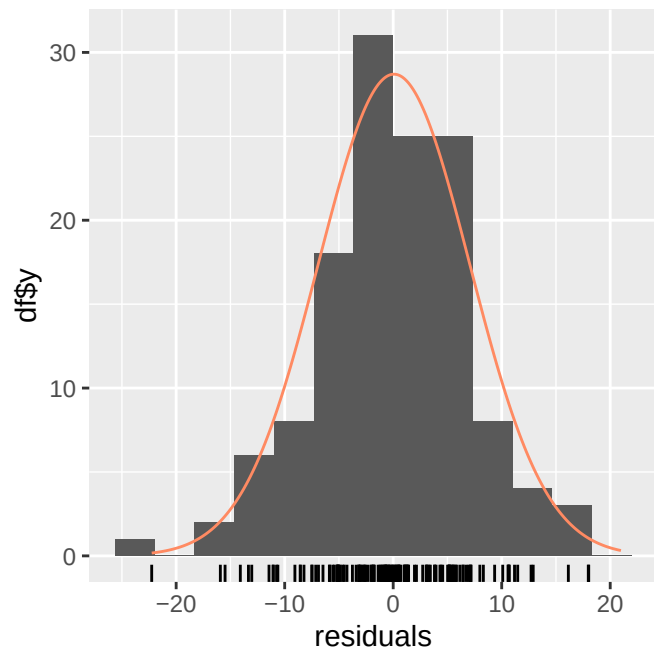

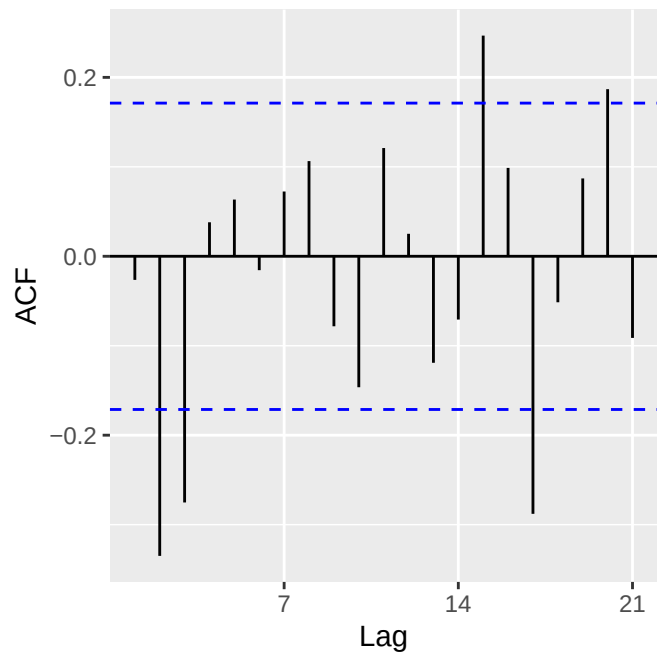

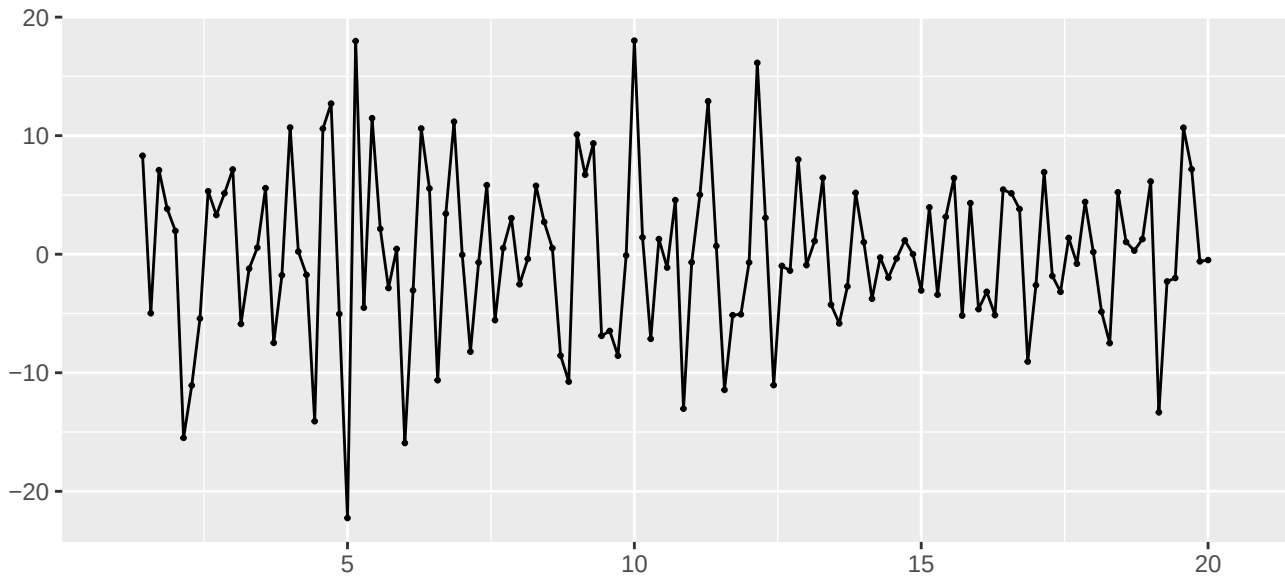

Decomposition of additive time series

Series: fare.decomp\$random

Residuals

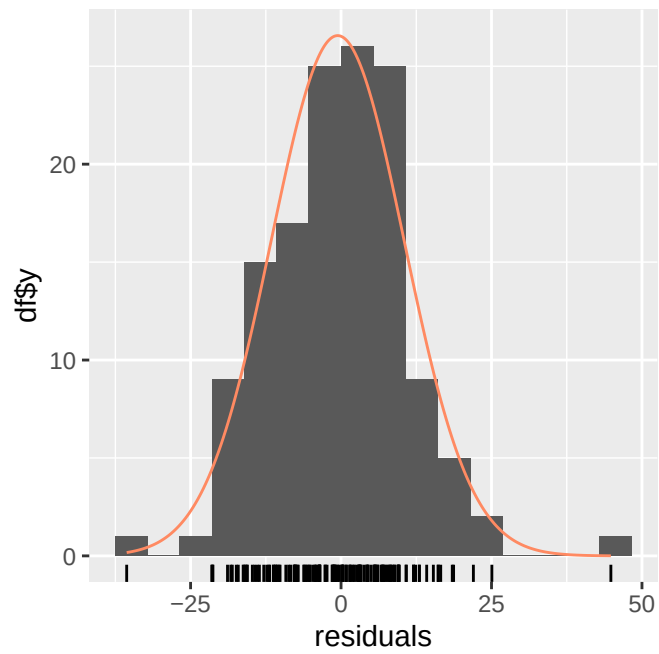

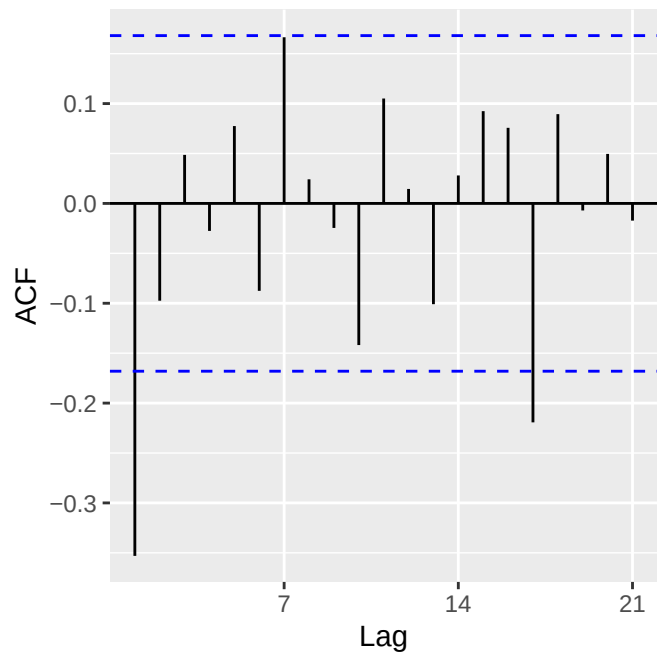

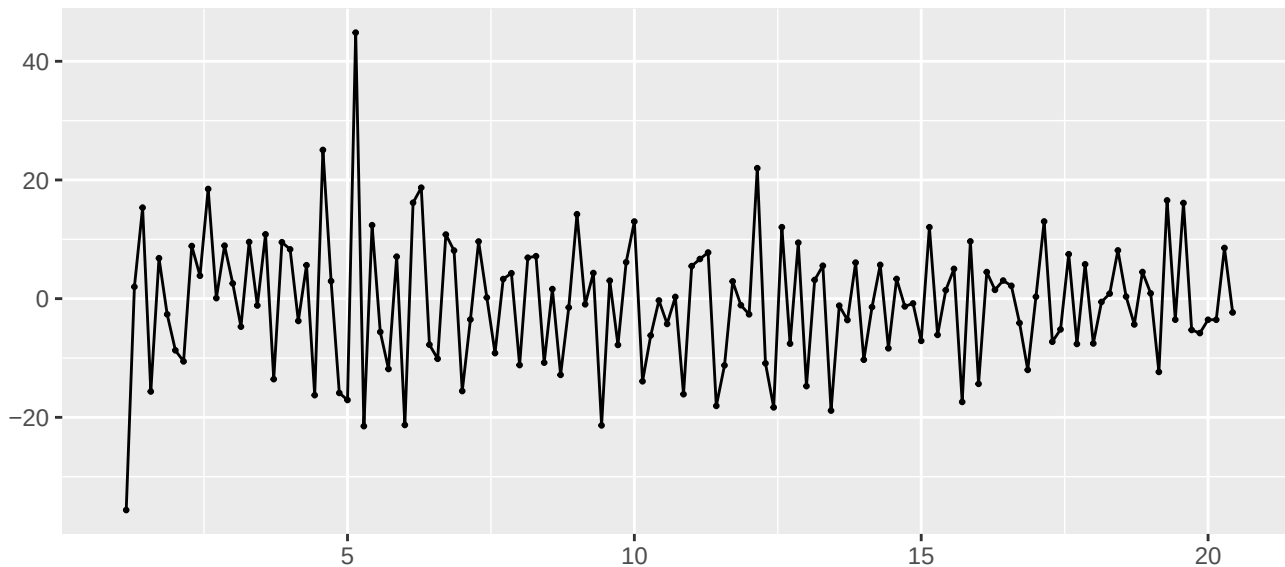

Flight Price Forecasts – All Models

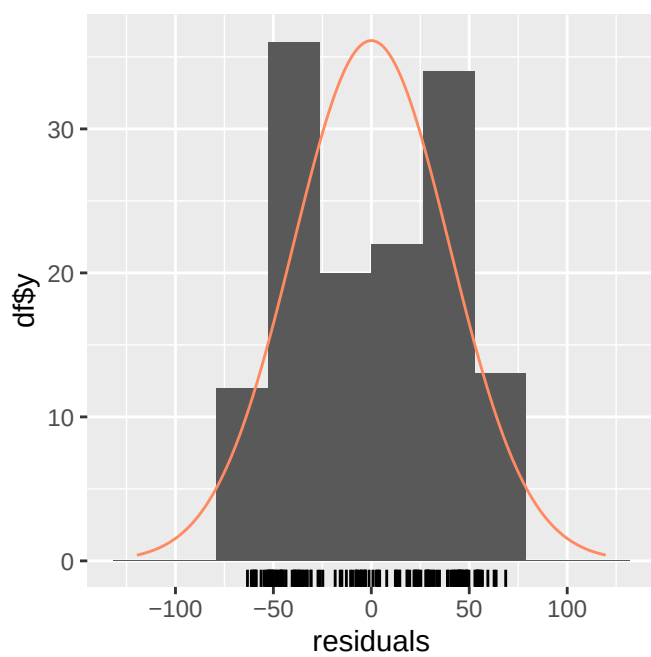

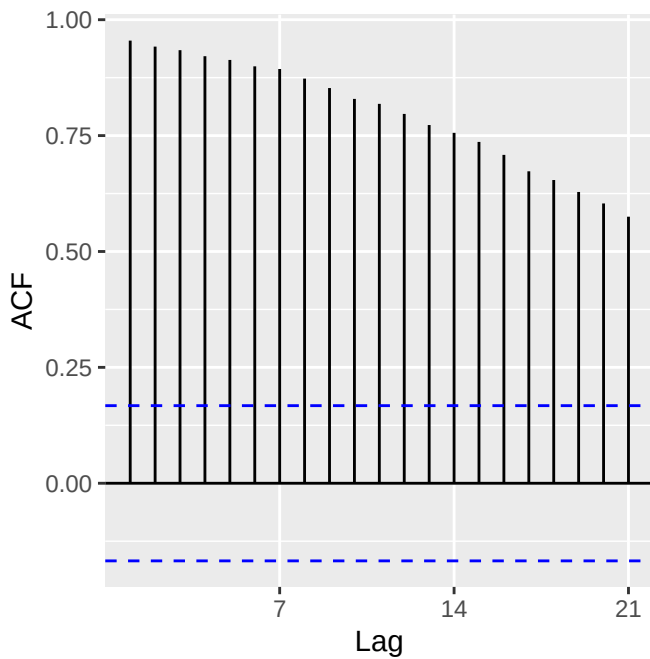

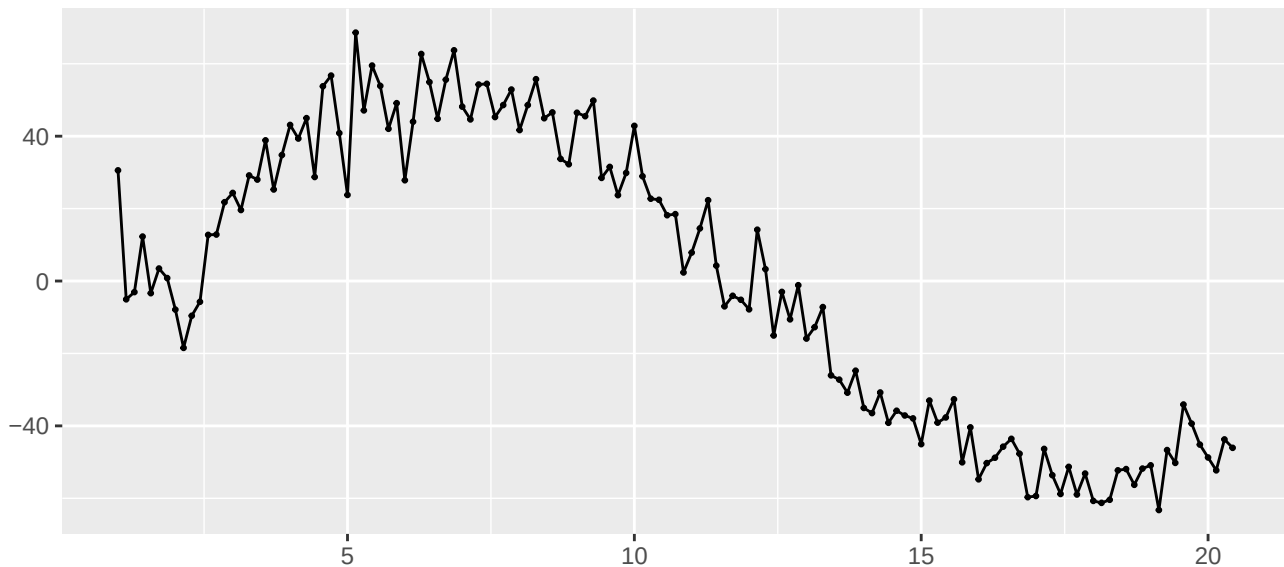

Flight Price Forecasts – Zoomed View (Last 50 Days + Forecast)

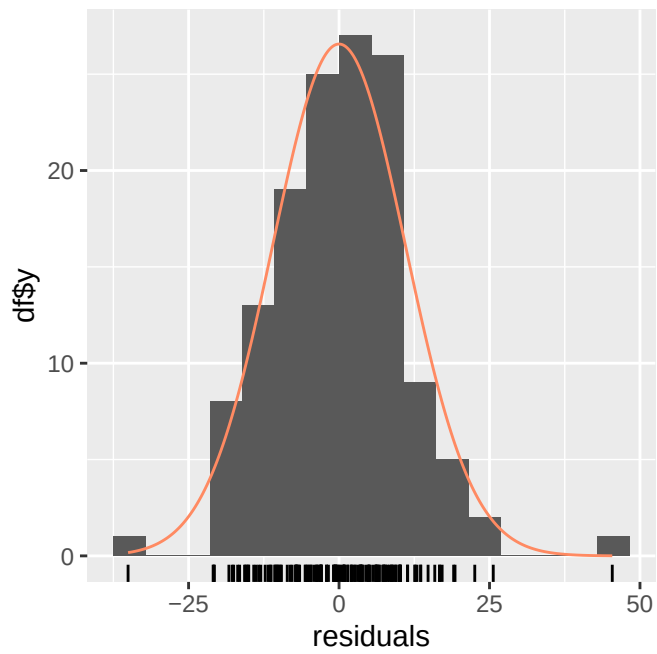

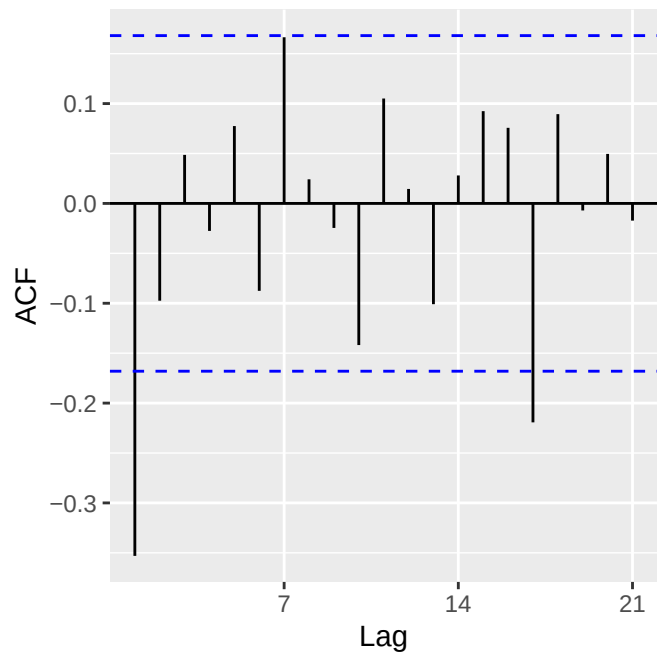

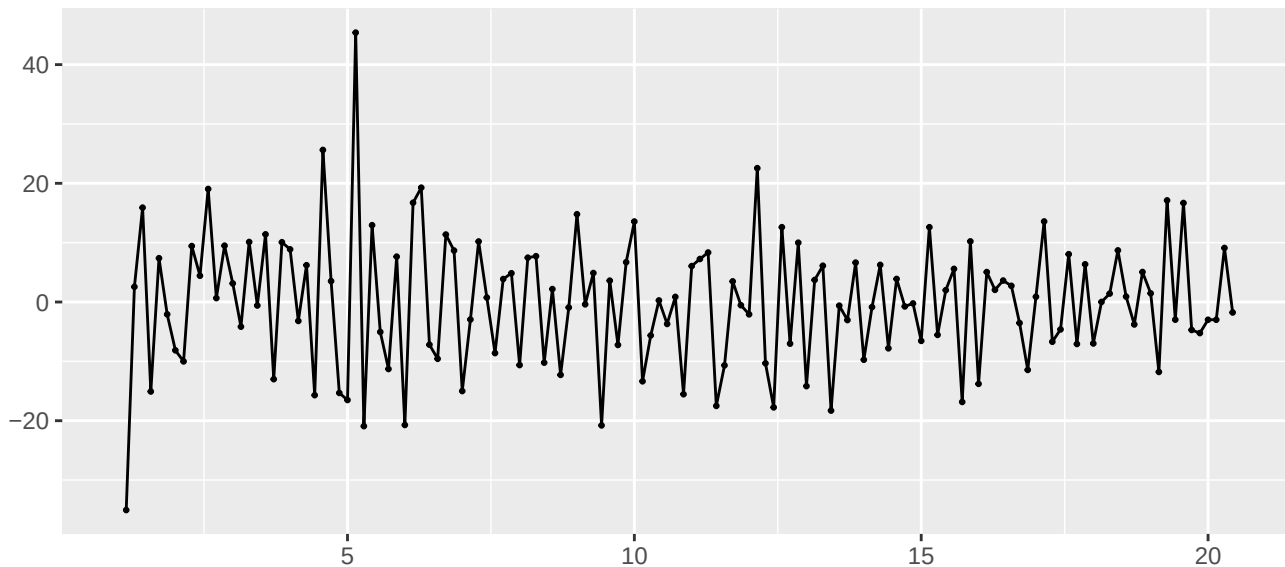

Residuals from Naive method

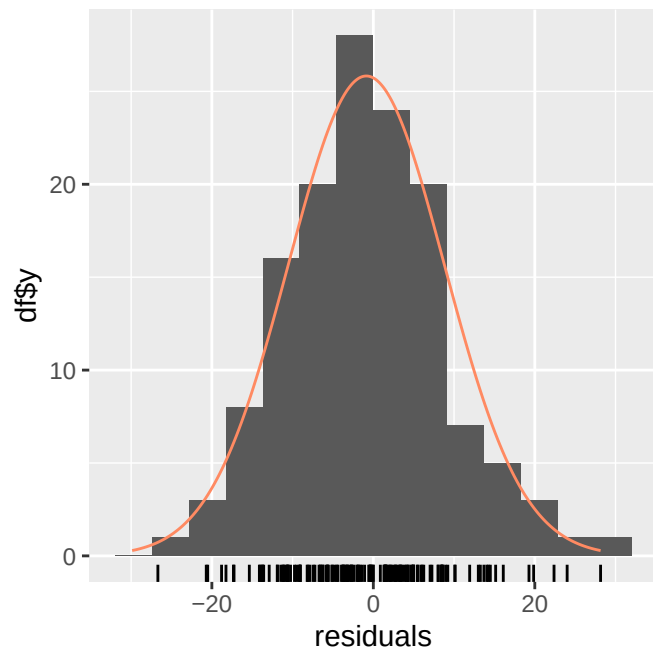

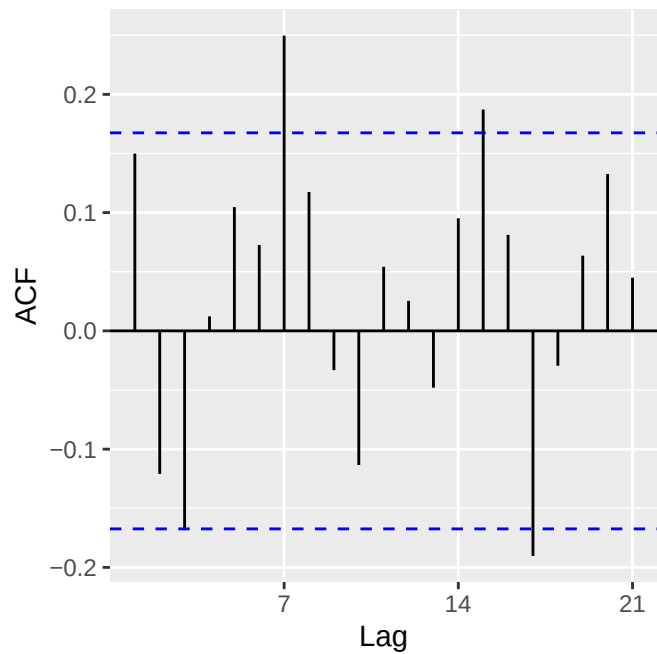

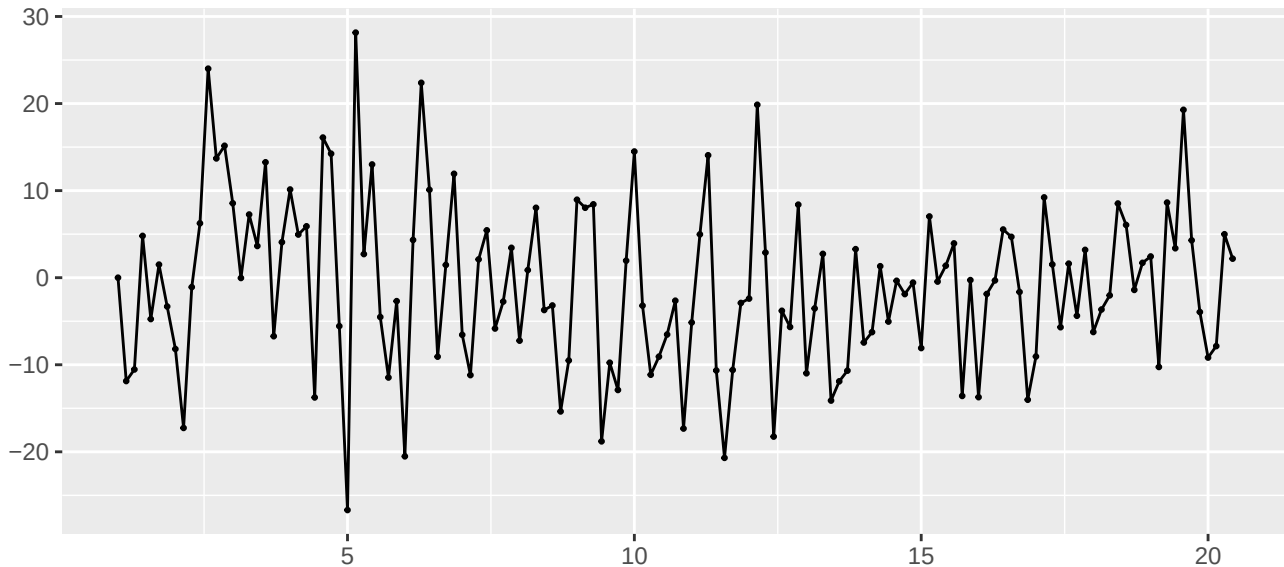

Residuals from Mean

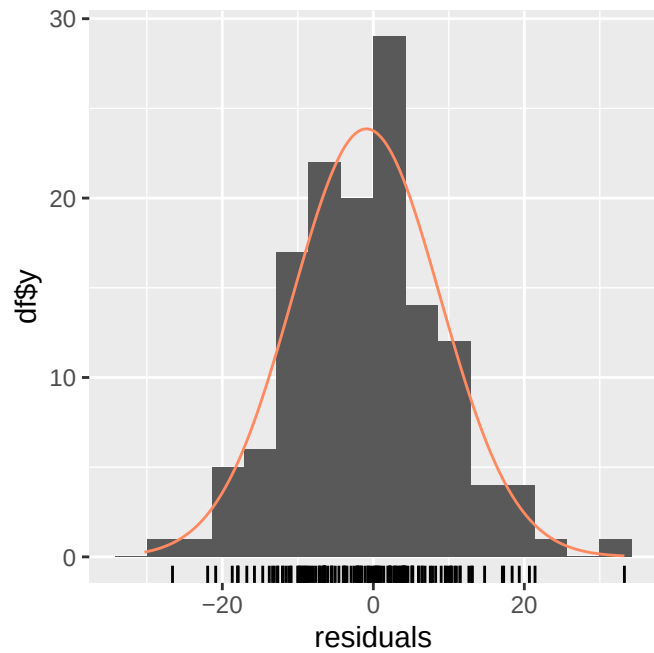

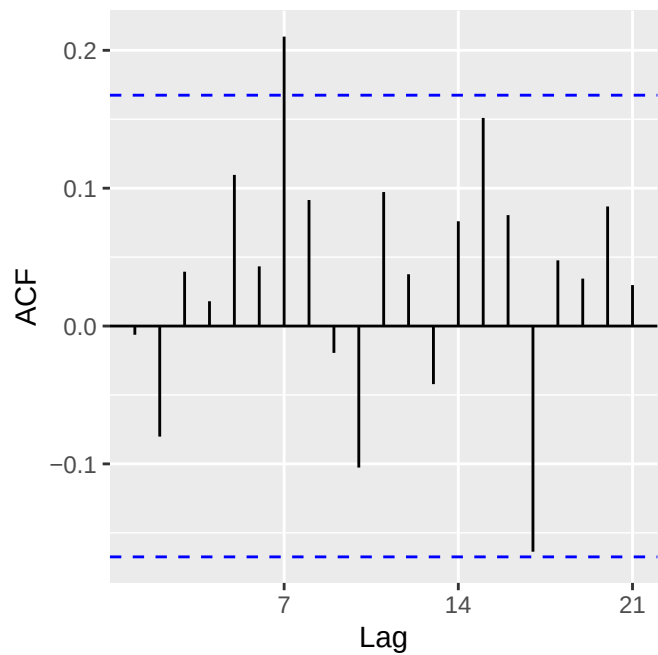

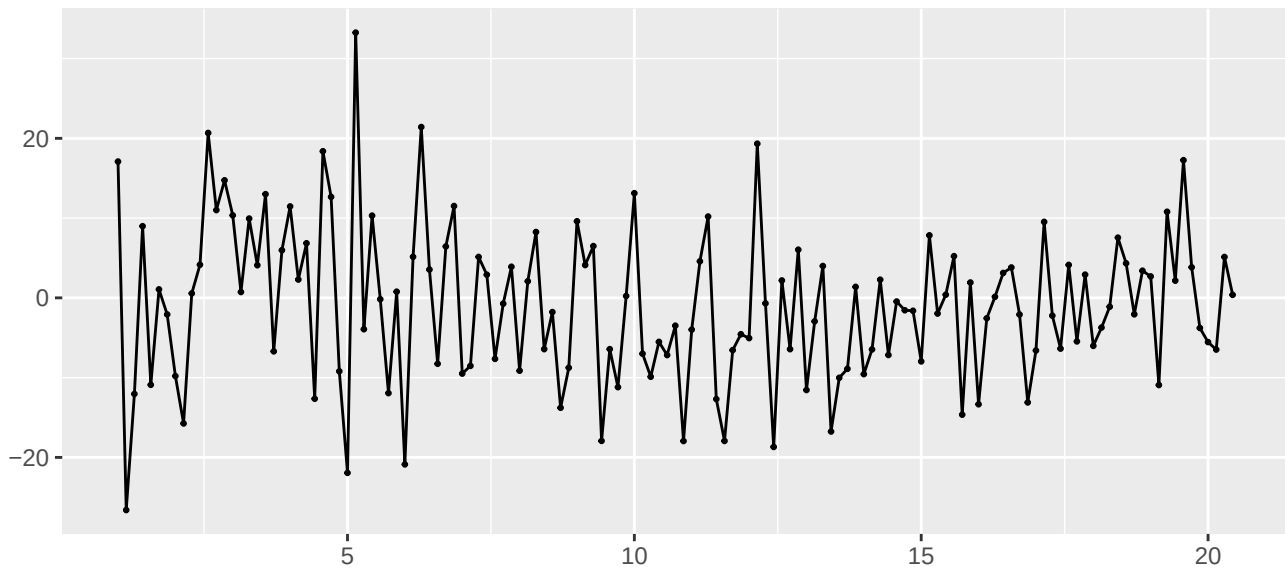

Residuals from Random walk with drift

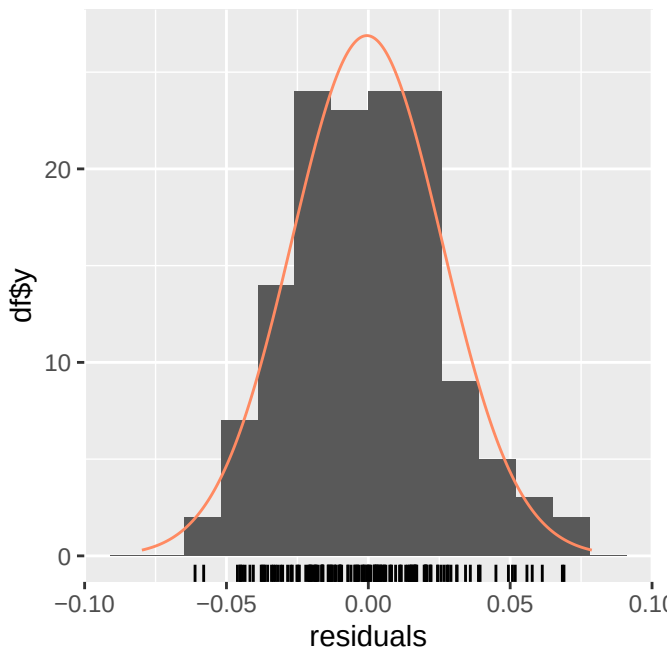

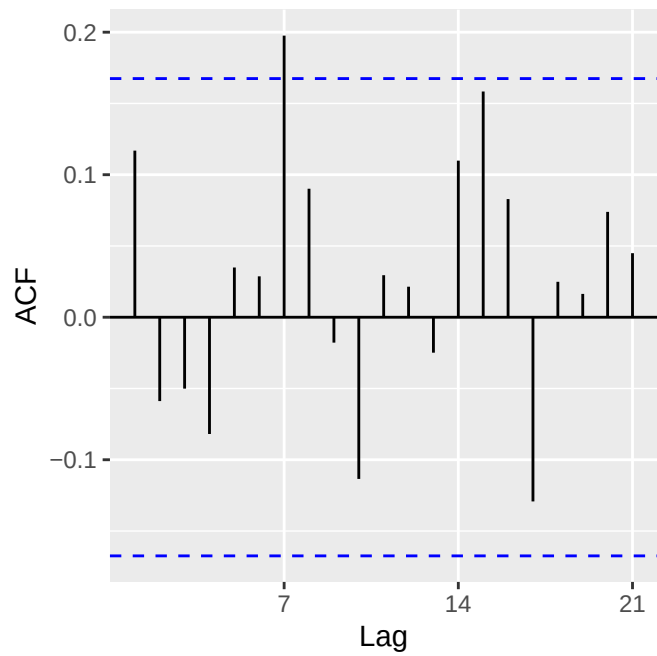

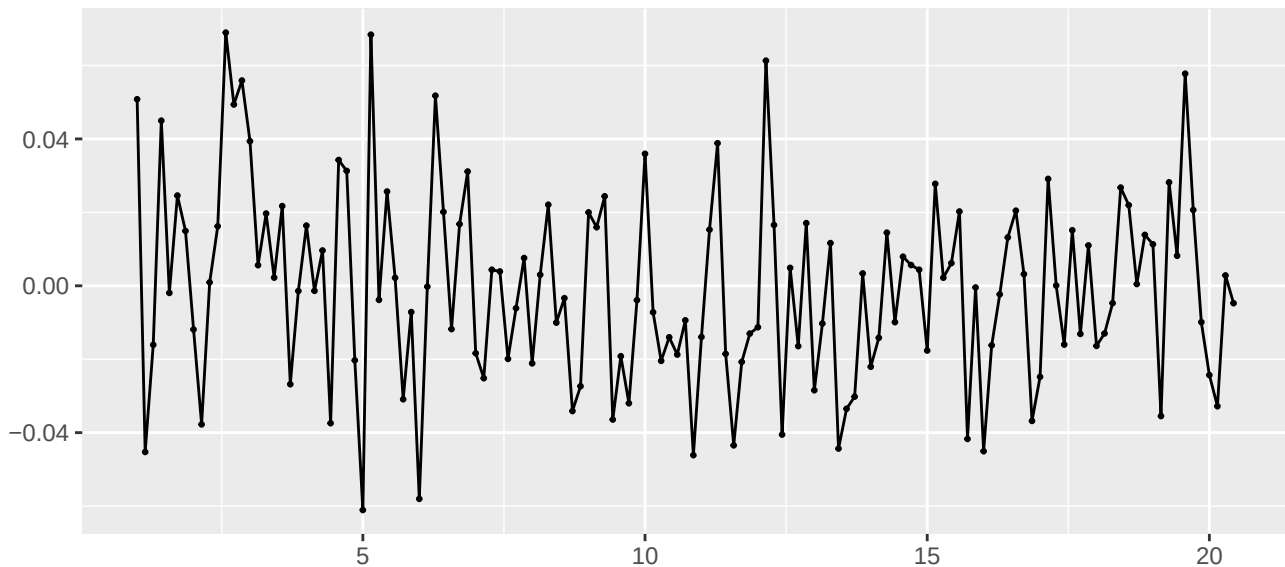

Residuals

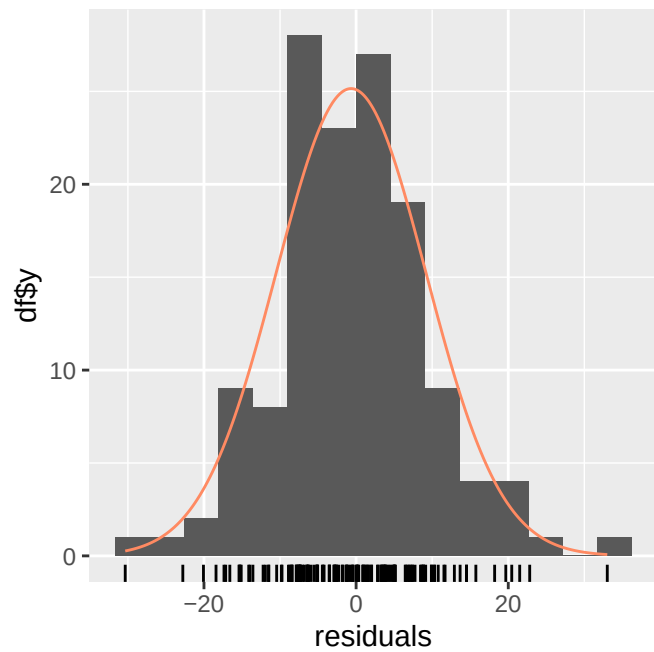

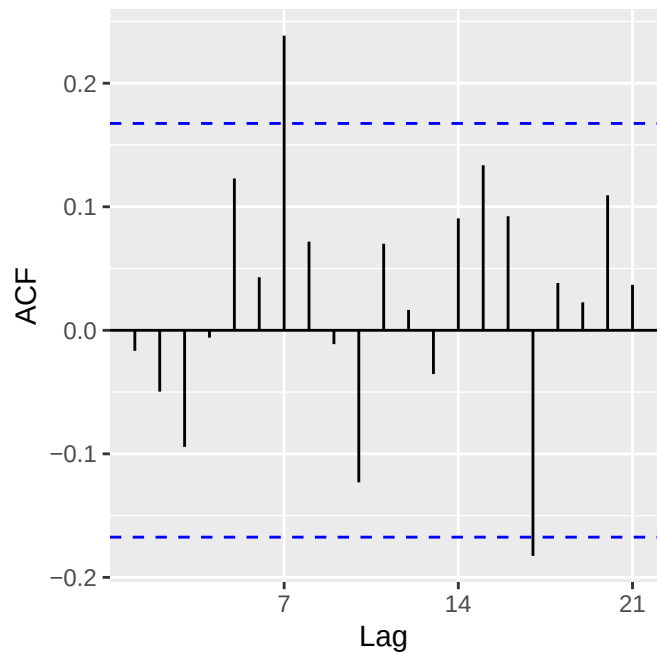

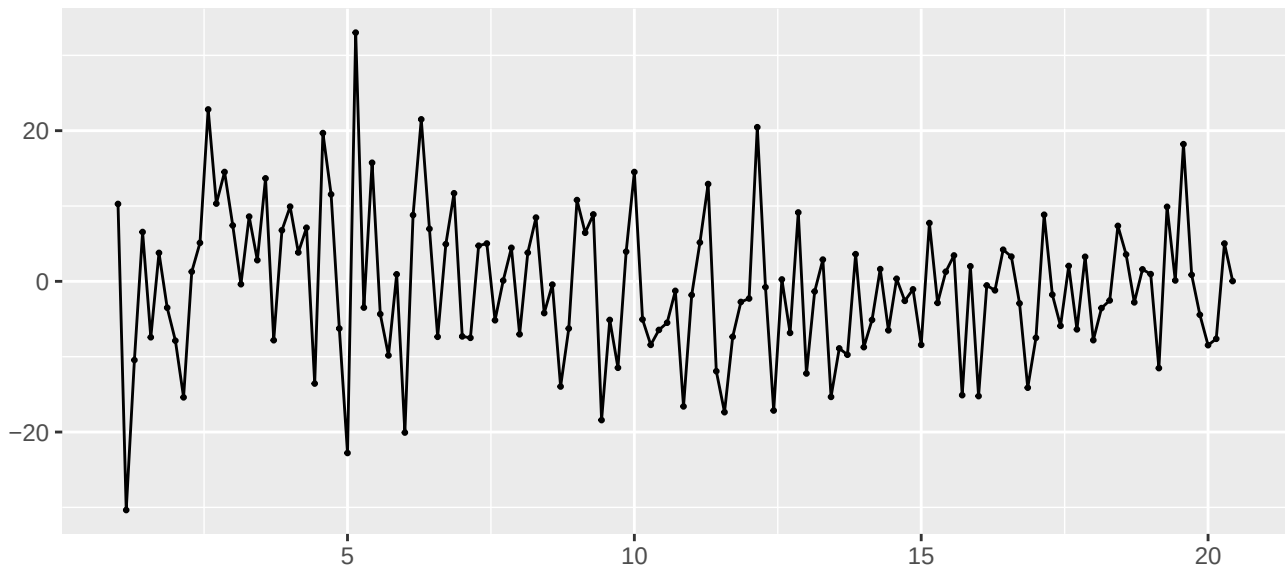

Residuals from Simple exponential smoothing

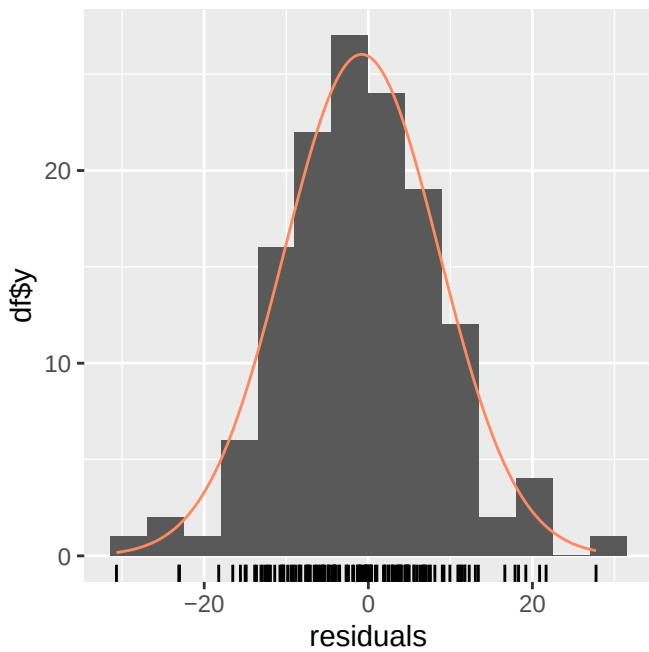

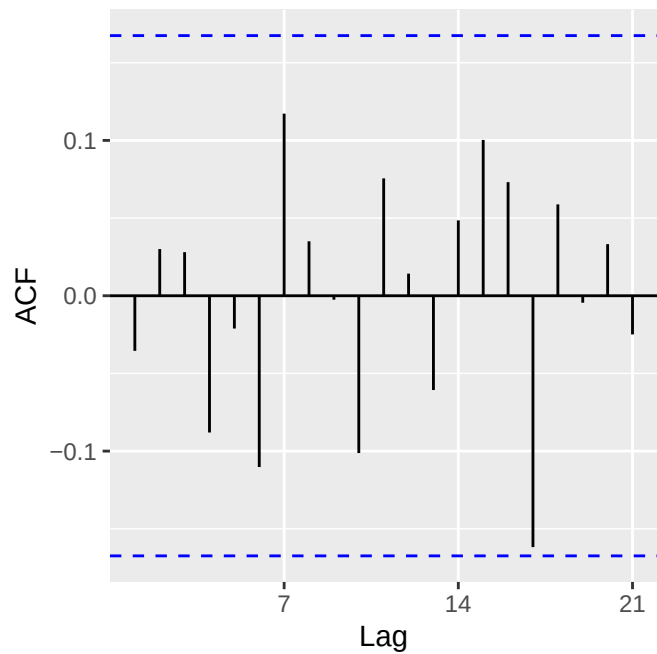

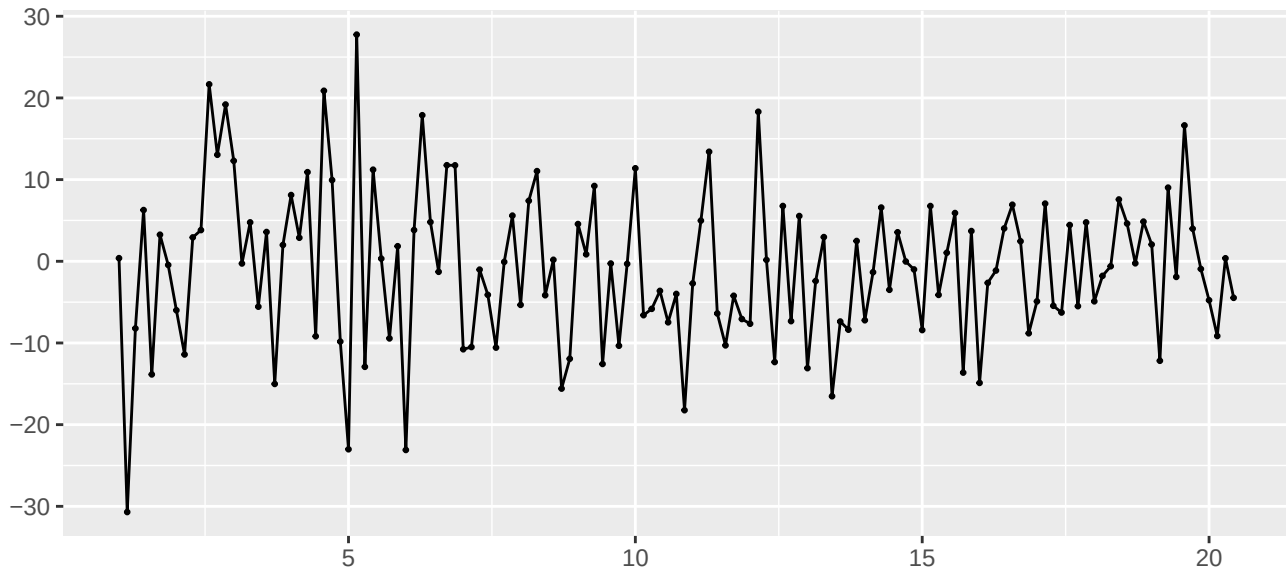

Residuals from ETS(M,Ad,N)

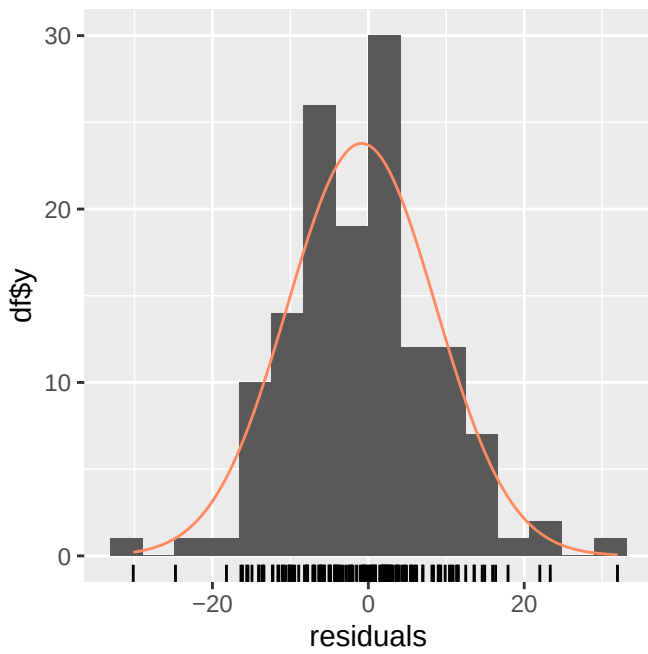

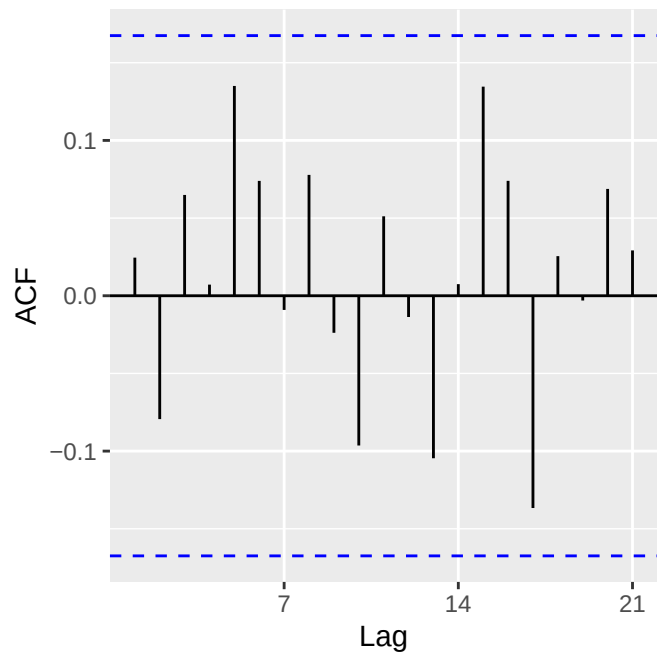

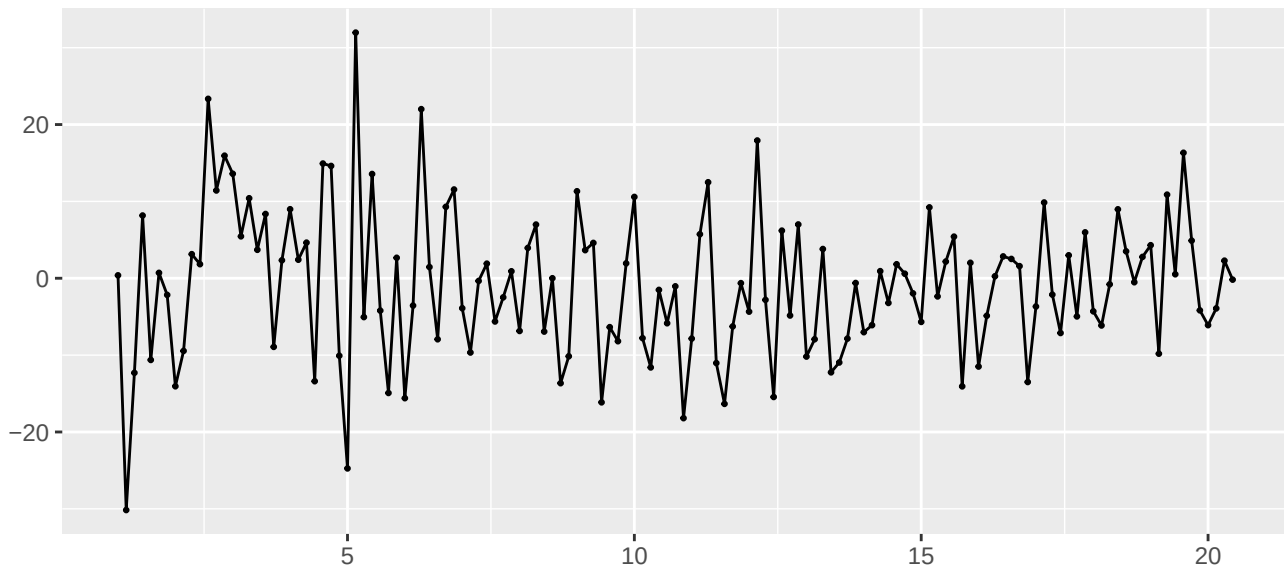

Residuals from ARIMA(3,0,0) with non-zero mean

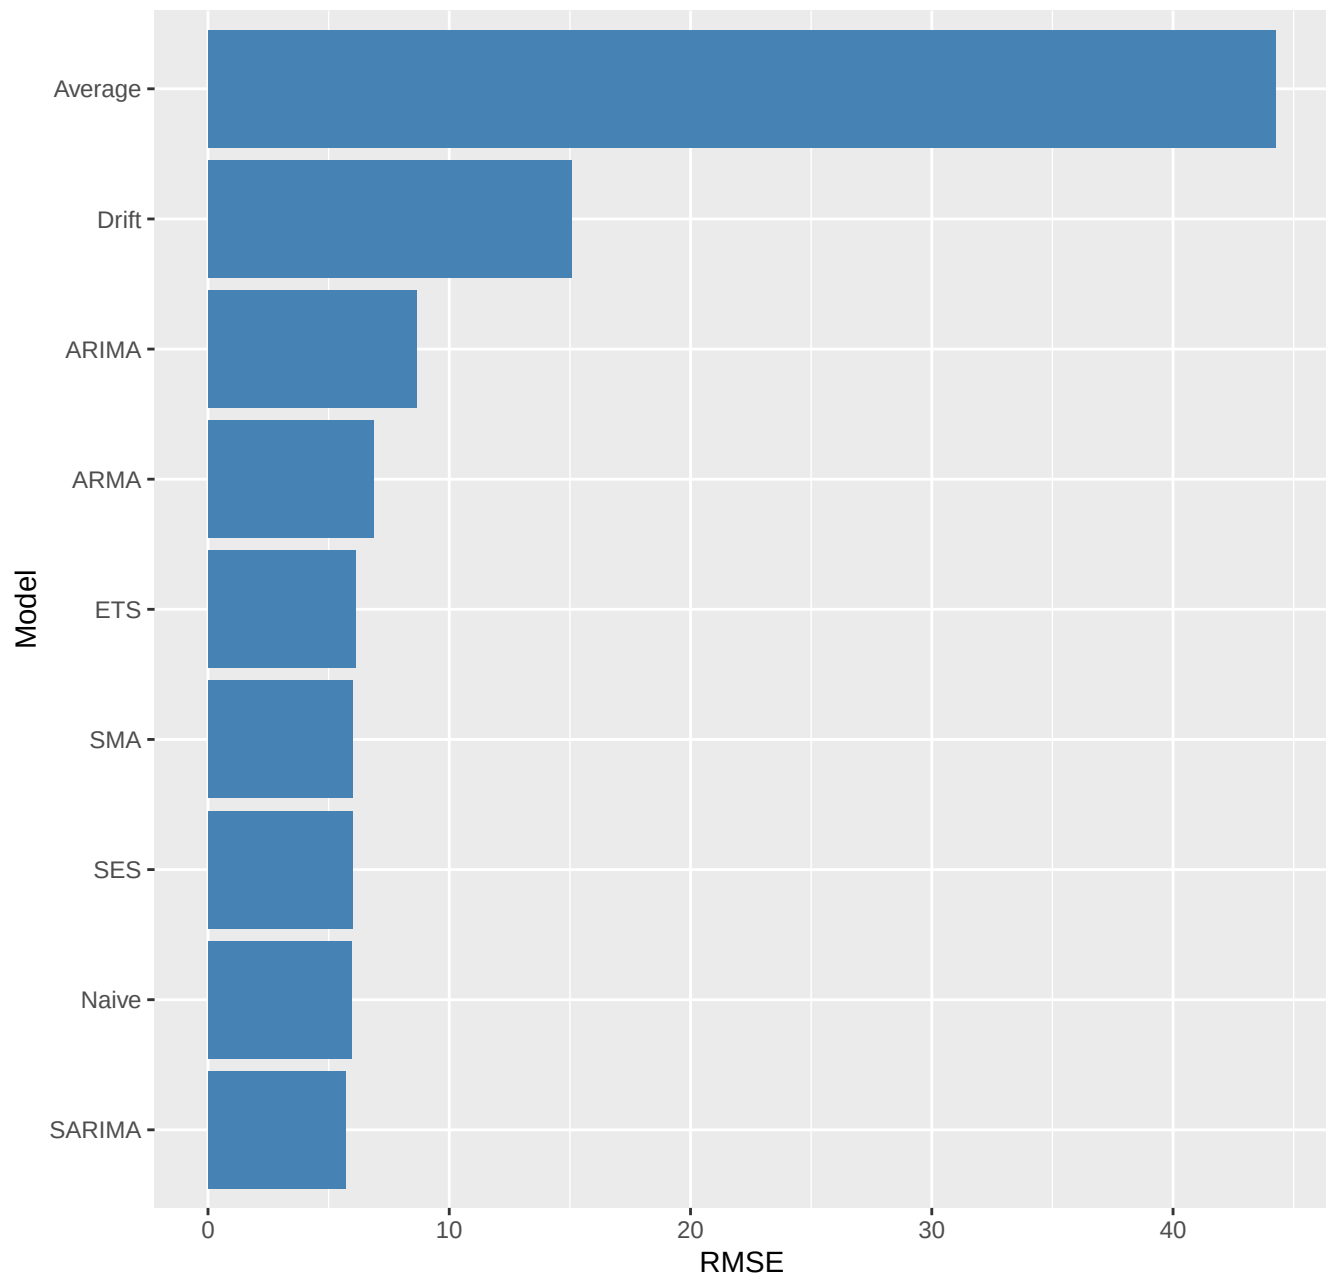

Residuals from ARIMA(2,1,2)

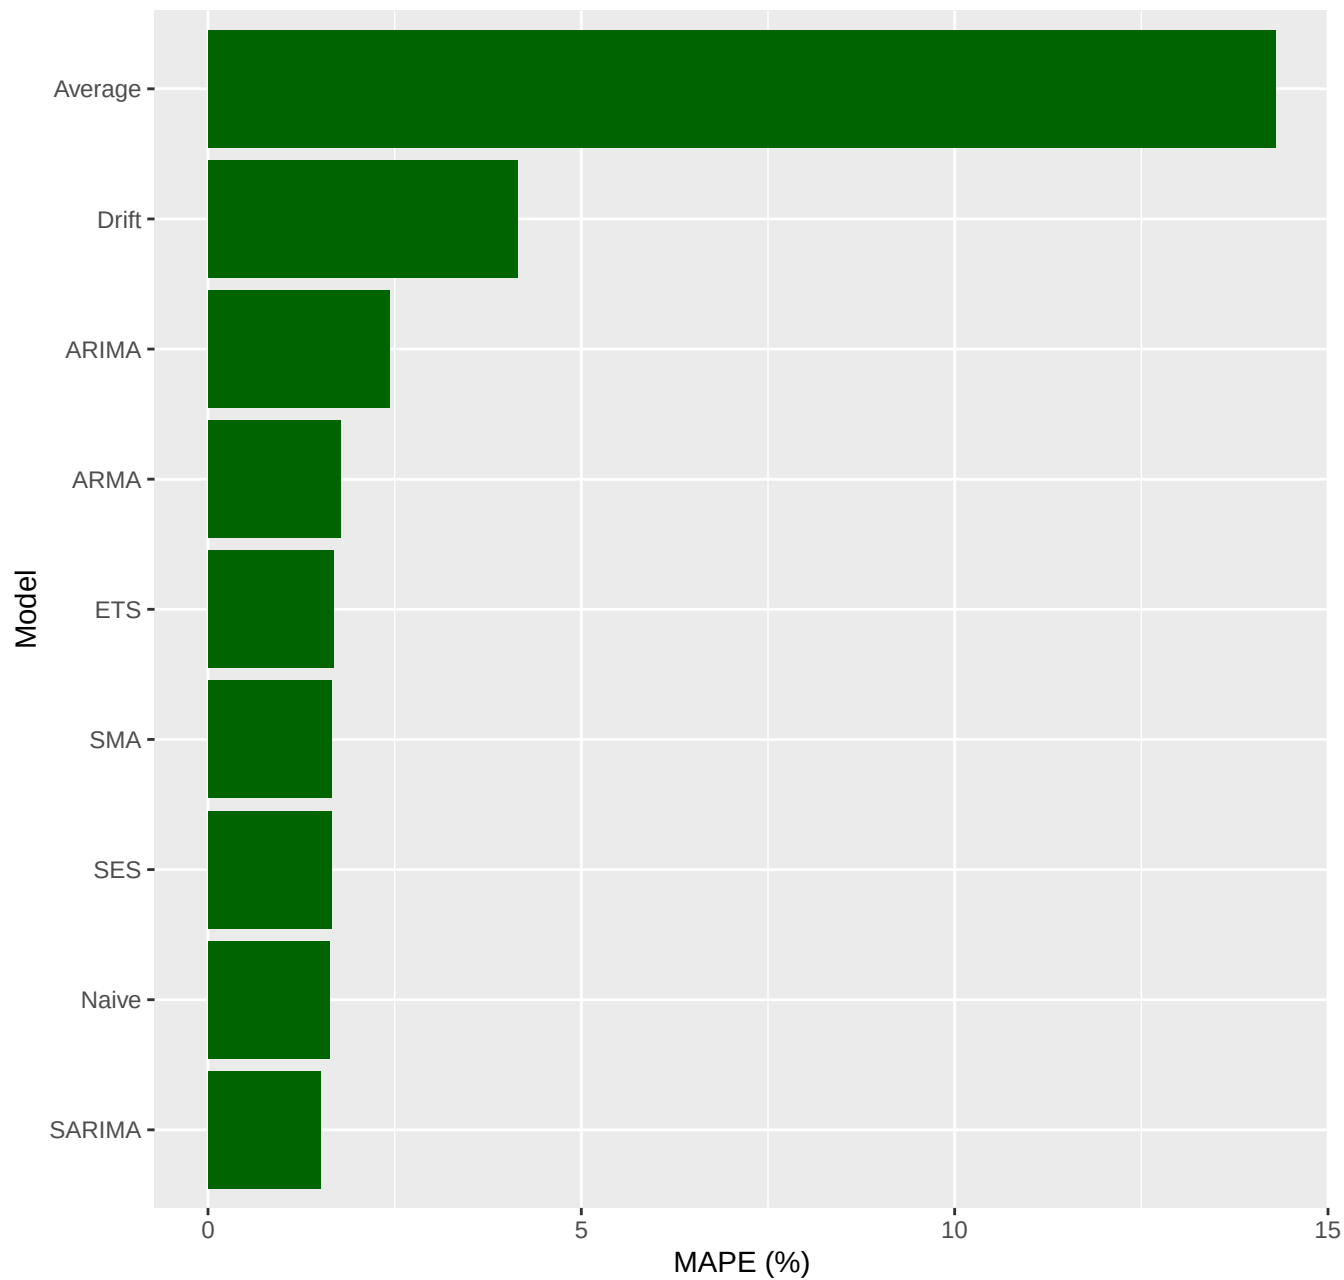

Residuals from ARIMA(0,1,1)(1,0,0)[7]

Model Comparison – RMSE (Lower is Better)

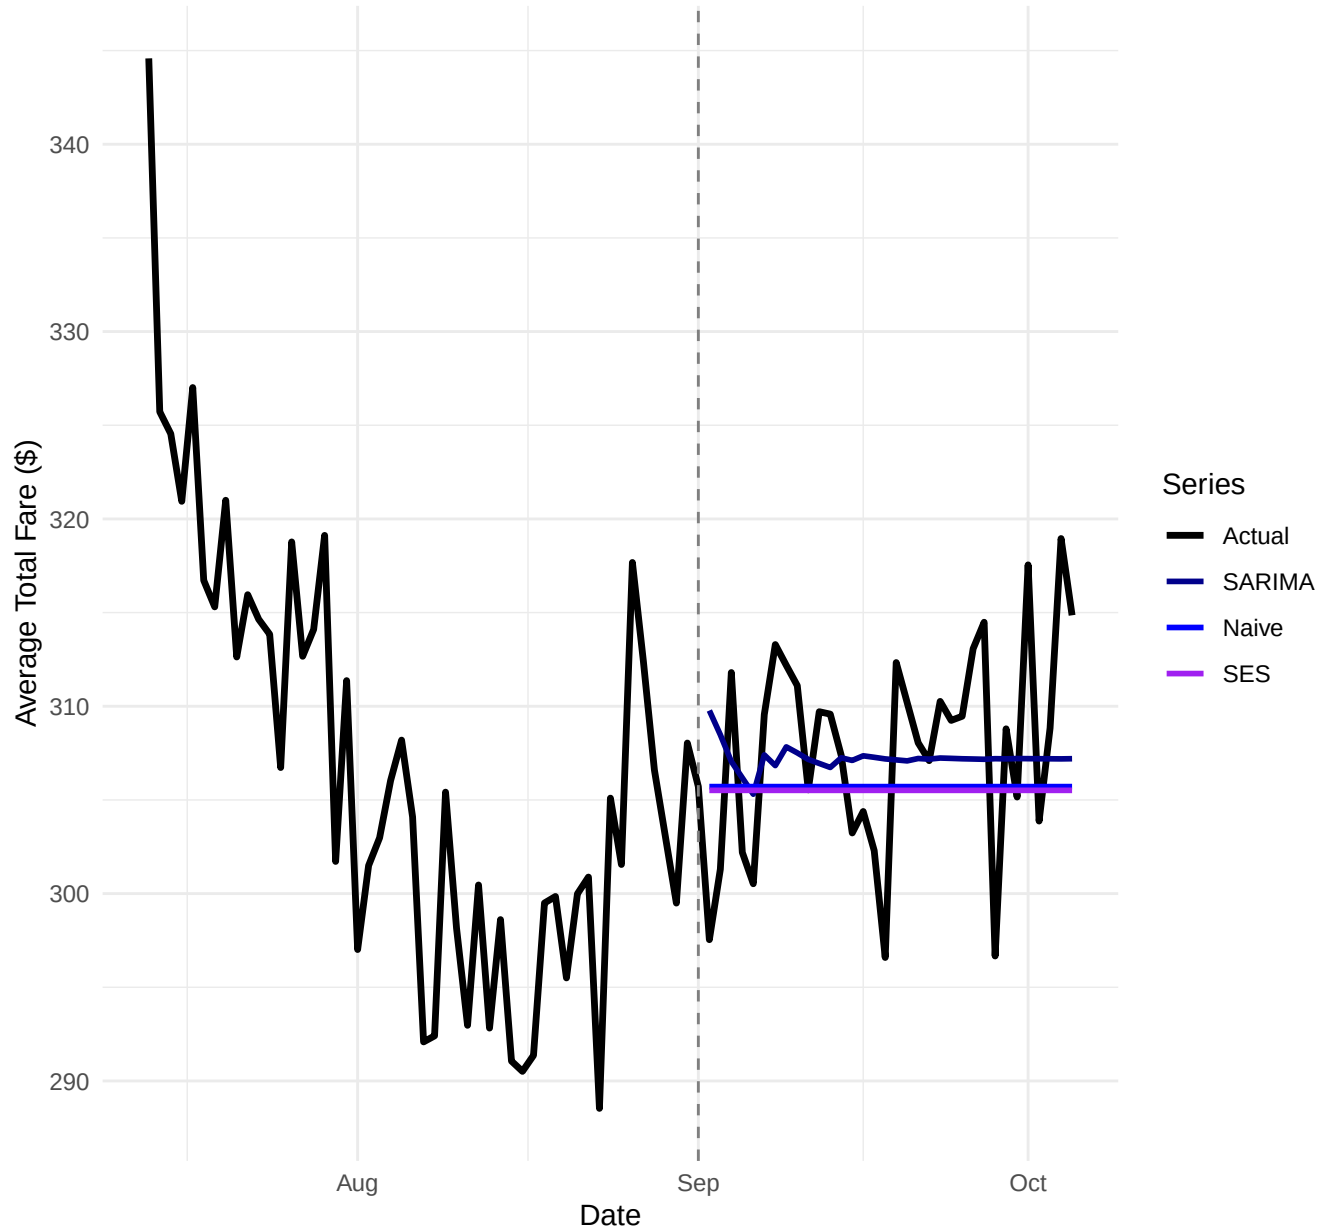

Model Comparison – MAPE (Lower is Better)

Flight Price Forecasts – Top 3 Models by RMSE
